

## Air Wobble Cushion

SKU: RDS30AIR

---

Please read the Information for Use carefully and retain for future reference.

### WARNINGS:

Adult supervision required

0-3  
Contains small parts - choking hazard

Do not exceed the maximum weight limit  
KG

This product is not a toy

### Important:

- Maximum weight limit – 120kg

### Good to know:

- Dimensions – Diameter: 30cm
- Free from BPA, Latex, Rubber and Phthalates.
- Fitted with a valve for inflation.
- Pump and needle adaptor not included.

### Inflating and deflating the Air Wobble Cushion:

- Insert the needle adaptor into the valve and inflate the Air Wobble Cushion using a pump.
- Once the required inflation is reached, slowly remove the needle adaptor. The Air Wobble Cushion will remain inflated.
- Inflate the Air Wobble Cushion with enough air to ensure it retains its shape when sat on. Too much air (making the Air Wobble Cushion bulge out of shape) may result in the cushion not functioning as intended. DO NOT OVER INFLATE.
- To deflate the Air Wobble Cushion, insert the needle adaptor (without the pump) and let the air escape out of the valve.
