This product is not a toy

### Good to know:

#### Junior Wedge Cushion

- Suitable for ages 3 – 7 years.
- Dimensions – (W) 26cm x (L) 26cm x (H) 7cm.
- Made from TPE - Free from BPA, Latex, Rubber and Phthalates.
- Fitted with a valve for inflation.

#### Senior Wedge Cushion

- Suitable for age 6+
- Dimensions – (W) 35cm x (L) 35cm x (H) 7cm.
- Made from PVC - Free from BPA, Latex, Rubber and Phthalates.
- Fitted with a white plastic stopper for inflation.

### Inflating and deflating the Wedge Cushions:

#### Junior Wedge Cushion

- The Wedge Cushion can be inflated by using the mouth or by using a pump with a needle adaptor (not included).
- If you wish to inflate the Wedge Cushion by mouth, ensure you pop out the valve before you start or alternatively insert the need adaptor into the valve and inflate using the pump. Once the required inflation is reached, slowly remove the needle adaptor. The Wedge Cushion will remain inflated.
- To deflate the Wedge Cushion, insert the needle adapter (without the pump) and let the air escape out of the valve.

#### Senior Wedge Cushion

- To inflate the Wedge Cushion, remove the white plastic stopper from the back of the cushion and blow up by mouth or using a hand pump (not included). Once the required inflation is reached replace the white plastic stopper firmly.
- To deflate the Wedge Cushion, remove the white plastic stopper.

**NOTE:** Inflate the Wedge Cushion with enough air to ensure that it retains its wedge shape when sat on. Too much air (making the Wedge Cushion bulge of shape) may result in the Wedge Cushion not functioning as intended. DO NOT OVER INFLATE.

Made in Taiwan
